

Annual Report 2022-2023

Shaikh Burhanuddin Post Graduate College, Dhaka

Valiant freedom fighter and renowned educationist

Principal (ret.) Md. Abdul Haque

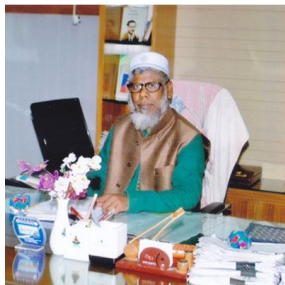

Message

Bangladesh illuminated in the golden light of Independence and celebrated the land marked event of the 100th birthday of Father of the Nation Bangabandhu Sheikh Mujibur Rahman in 2021. Bangabandhu believed in creating equal learning opportunities for everyone and enshrined education as a fundamental human right. As education is an essential aspect of human development, Bangladesh has made noteworthy progress in increasing ways of learning during last decades. The global pandemic situation was threatening to slow down many of those attainments. But our college has been continuing all the work expeditiously. In the whole world students have been affected by the temporary institutions closures and they are eagerly waiting to go back to the institutions.

Shaikh Burhanuddin college is famous institution of old Dhaka has drawn the attention to all and sundry because of its standard education system resulting a consecutive production of qualitative students every year. It is significant to mention that this is the first non-government college in Dhaka City where Post-graduation was introduced in 1995. The college is offering 15 modern cutting edge subjects like Computer Science, Environmental Science, Anthropology and BBA.

Shaikh Burhanuddin College has implemented projects run by the CEDP in the covid-19 situation. The CEDP college team has prepared the annual project proposal for the next year, and they are working hard to implement the project in the targeted time.

I hope that with the development of the pandemic situation, everything will be normal very soon.

Message

The Father of the Nation Bangabandhu Sheikh Mujibur Rahman's thoughts on education are reflected in his speeches, policies and actions. Our government also initiated actions for revamping the education system. As education breeds confidence, hope and peace, Bangladesh has made significant progress in different indexes of education. The global pandemic situation is still threatening to slow down many of those activities.

The main feature of the sustainable development goals (SDG) is 'quality education' which is the main target of the government. It is a challenge for educational institution to achieve the goal by ensuring all the facilities. The college authority has been continuing online classes to keep the students involved in learning. In the mean time we have completed our Higher Secondary examination (Short Syllabus)-2021 and other exams are going on. Our regular classes of Higher Secondary and Hon's are running in full swing. Our teachers and students are following the rules of Health to continue the classes. We have the most important challenge ahead to compensate for their loss in the coming year.

Shaikh Burhanuddin College has implemented project run by the CEDP in the covid-19 situation. The CEDP college team has prepared the annual project proposal for the next year, and they are working hard to implement the project in the targeted time.

The pandemic situation is gradually developing and I hope that everything will be normal very soon.

Chapter 6 Concluding Remarks

Overall Performance of the Last Year was satisfactory. But SBPGC is committed to make the record outstanding. It is firmly determined to improve exam. results and ensure the quality education.

Overall Assessment of Performance of the Last year and Key Target for the Next Year

The teachers and the employees showed creativity and innovative skills in continuing academic and official activities in the pandemic situation. They showed quick adaptability and a communicative skills too. The all these are the part of their accountability with the profession. They also developed problem solving and inter personal skills.

If the pandemic situation continues, we must carry on the technology-assisted programs to ensure the virtual attendance, punctuality, productivity of quality work, mutual cooperation, coaching and training skills and so on.

We will arrange more in-house training programs, webinars, cultural competition on virtual platforms, awareness programs and so on.

Evaluation systems will be introduced to ensure the professional commitment of the teachers and the employees as well.

With the development of pandemic situation, programs of virtual platform should be minimized and classroom based activities should be restored as it were previously.

Key Challenges and Risks for the College

Risk Factors: We have a few challenges to reach The Goal. We have class room limitation along with the number of teachers compared to students.

- Lack of motivation for academic performance
- Changing negative attitude to positive
- Help to boost up self-respect and level of confidence
- Reducing psychological problems

Key Challenges:

- Overcoming the academic loss during COVID-19 period
- Enhancing classroom performance
- Setting up technology based classrooms
- Developing behavioral pattern and cultural attitude
- Increasing guardians involvement
- No student should be left behind

Recommendations

To reach our goal, We immediately need to setup more academic building to increase classroom facilities. Besides more post should be created for the teachers so that more teachers can be enrolled to ensure quality education.

If we find any change in ongoing pandemic situation, we should increase technological facilities, such as Wi-Fi access for both of the teachers and students. In the periphery where Wi-Fi access is not easy students should be provided with mobile data facilities almost free of cost. Effective online examination system should be innovated. Teachers and officials' efficiency should be increased in technological fields by imparting training programs. They should be encouraged to be technology savvy. Some activities should be conducted by maintaining physical distance and health issues.
